Universe Bond Strategic Bias

Investment objectives

The objective of the Optimum Universe Bond Strategic Bias Strategy is to obtain income and capital security over a medium- to long term horizon and generate an average annual return of **0.35% above** the benchmark over 4-year moving periods (before management fees).

The Strategy places particular emphasis on achieving maximum returns at maturity, while minimizing potential investment risks.

The portfolio is comprised primarily of fixed-income securities issued by Canadian issuers. Provincial and municipal government securities and corporate securities are generally favoured.

Why invest?

- Long historical performance and constant value added
- Construction based on strategic biases, ensuring stable returns
- Use of exclusive state-of-the-art technology integrating quantitative and qualitative filters
- Rigorous, disciplined investment process that integrates ESG factors
- Stable, experienced multidisciplinary management team

Risk rating

Optimum Asset Management considers the volatility of the Universe Bond Strategic Bias Strategy to be low to medium.

This level is based on the variation in returns from one year to the next. It does not indicate future volatility and may change over time. A low level of risk may see its value decrease.

Growth of \$10,000 since December 31, 2013

- **Best quarter**

4th quarter 2023: 8.65%

- **Worst quarter**

1st quarter 2022: -7.17%

Fund notice and price

Investments in the **Optimum Funds** are represented by trust units of the Optimum Funds (the "units"). The Optimum Funds each offer a class of units that can be split into an unlimited number of series of units, the terms of which are determined by the manager. The number of shares in each series is unlimited. The Optimum Funds offer on an ongoing basis, pursuant to this fact sheet and pursuant to prospectus exemptions under the Securities Act (Quebec), the following series of units to "accredited investors" resident in the Province of Quebec:

Series O Units: The units will be offered at the net asset value per series unit which is calculated on the applicable valuation day. For each Optimum Fund, the term "valuation day" means each business day (individually, an "Optimum Fund valuation day"). Fractional shares of up to three decimal places will be issued

Legal notices

The performance is shown in Canadian dollars, before management fees and is annualized for all periods over one year.

The information contained in the present document is provided for information purposes only and should not be construed as investment advice pertaining to your financial situation nor as specific advice relating to finance, legal, accounting, tax or investments. We assume no responsibility for any losses incurred due to the use of this data. It should not be considered as a solicitation to buy nor an offer to sell a security. It does not take into account an investor's specific investment objectives, tax situation nor investment horizon. There is no representation, warranty nor liability regarding the accuracy of decisions based on this data. All performance-based data factor in the reinvestment of all distributions or dividends and do not take into account management fees and other fees payable by investors which result in reduced returns.

The index used in the present document is a widely recognized benchmark used to measure investment performance for its respective asset class and was chosen based on its degree of comparability and similarity with the investment strategy presented.

Optimum Asset Management Inc. cannot guarantee future performance of strategies. Values fluctuate frequently and past performance is not indicative of future performance.
