# Long Term Bond Strategic Bias

### Investment objectives

The objective of the Optimum Long Term Bond Strategic Bias Strategy is to obtain income and capital security over a medium- to long term horizon and generate an average annual return of **0.25% above** the benchmark over 4-year moving periods (before management fees).

The Strategy places particular emphasis on achieving maximum returns at maturity, while minimizing potential investment risks.

The portfolio is comprised primarily of fixed-income securities issued by Canadian issuers. Provincial and municipal government securities and corporate securities are generally favoured.
