Integrated bond universe

Investment objectives

The objective of the Optimum Integrated bond universe strategy is to obtain income and capital security over a medium- to long-term horizon and generate an average annual return of **0.75% above** the benchmark over 4-year moving periods (before management fees).

The Strategy is based on active management whose sources of value add are largely attributed to sector allocation and security selection. The Strategy's top-down approach focuses on credit research based on data provided by our quantitative, fundamental and macro-analyses.

The portfolio consists of various classes of fixed-income securities issued by Canadian issuers. Provincial government and corporate securities are generally favoured.
